

# Supported Housing Review

## Supported Housing Providers Questionnaire

The Department for Levelling Up, Housing and Communities (DLUHC) has commissioned the Centre for Regional Economic and Social Research (CRESR) at Sheffield Hallam University to undertake a research study to assess the size, cost and demand of the supported housing sector across England, Scotland and Wales. This will build on and update the 2016 [supported accommodation review](#) and we expect the research findings to be published by the end of 2023.

We are contacting supported housing providers. We want to understand how provision varies by client group, service type, funding and costs, services commissioned or not commissioned by the local authority or other statutory bodies, and use of accommodation which is not categorised as 'specified accommodation'. We also want to understand key challenges and priorities for the sector.

We are grateful for your time in completing the survey as it really makes a difference to the overall research and robustness of the findings.

The data provided will not be seen by anyone other than the research team. An anonymised version of the database (with personal details removed but including organisation name) will be made available to the DLUHC and DWP teams at the end of the study but this will not be made publicly available. The data provided will be stored securely (see below) and used only for the purposes of this research. No personal details of respondents will be used in reporting.

If there is a more appropriate person within your organisation to fill in this questionnaire, please forward the email with the link for the survey to them.

We only need one set of responses for your organisation as a whole and so if more than one individual in your organisation needs to complete different sections of the questionnaire you can save this form as you go along and forward to another colleague for them to further add to the responses. Please remember to return the final form when complete.

If you have any questions about this questionnaire, want to know more about the study or need any assistance please do not hesitate to contact the CRESR research team:

David Leather - [d.leather@shu.ac.uk](mailto:d.leather@shu.ac.uk) or on 07471 266857.

## Supported Housing Definitions

---

For the purpose of this survey and to ensure consistency of responses, Supported Housing includes housing that is designed or designated to come with care, support and supervision and is provided by a social landlord, charity, non-profit voluntary organisation or local authority. This **excludes** 'floating support' services where this is not designated to the accommodation. This also excludes care homes.

**Supported Housing Provider:** for the purposes of this survey this refers to the organisation that issues the resident's tenancy/licence to occupy and manages the supported housing scheme (this may be different to the organisation that owns the property used for the scheme or provides the care/support).

---

## Supported Housing Units and Service Users

---

The rest of this survey only needs to be completed by supported housing providers that issue the resident's tenancy/licence to occupy and **manages supported housing schemes**.

Please provide information to the following questions in relation to **ALL supported housing schemes you manage** (where your organisation issues the resident's tenancy/license to occupy and manages the scheme). Do not include information on supported housing schemes you may own but do not manage.

The following questions will ask you about the schemes you manage, how many are specified accommodation or accommodation which is not categorised as 'specified accommodation' and to what extent these are commissioned services (or not).

**6. How many supported housing units do you manage overall?**

*A 'Unit' refers to a self-contained home, or a room within a shared house where the resident has a tenancy/license to occupy.*

Total supported housing units:

**7. How many of your supported housing units that you manage do you also own the property?**

*If you are unable to provide the exact number please estimate.*

Number of units:

**8. How many Specialised Supported Housing units do you manage?**

*If you are unable to provide the exact number please estimate. If none please enter zero.*

Number of units:

**9. In how many local authorities is the supported housing stock that you manage located in?**

Number of Local Authority areas:

**10. Please indicate how many of the supported housing units that you manage are available at sub-market or market rents.**

*If you are unable to provide the exact numbers please estimate.*

*The sum of units in categories a) to c) should equal the total number of units in Q6.*

**Number of units**

a) Social rent:

b) Affordable rent:

c) Market rent:

**11. How many supported housing units do you manage for each of the following service types?**

*See below for definitions for each service type. Please allocate units only once.*

*Please allocate units to category which is the closest match to your types of provision.*

*If exact figure unknown, then please estimate or tick not available box for each category.*

*The sum of units in categories a) to c) should equal the total number of units in Q6.*

a) Short-term/transitional supported accommodation	<input type="text"/>	<input type="checkbox"/>
b) Long-term supported housing for working age disabled people	<input type="text"/>	<input type="checkbox"/>
c) Housing for older people with care and/or support needs	<input type="text"/>	<input type="checkbox"/>

**Short-term/transitional supported accommodation:** intermediate provision for a range of cohorts with support needs with a view to move on towards more independent accommodation. Duration of stay would typically be two years or less (but this isn't a hard time limit). This may include hostels and transitional housing for people in crisis (e.g., poor mental health).

**Long-term supported housing for working age disabled people:** long-term provision for people with a physical disability or enduring mental ill health, and people with a learning disability and/or autistic people or other lifelong condition. This is often known as "supported living."

**Housing for older people with care and/or support needs:** supported housing typically designed for and restricted to people aged over 55. This may have different names depending on the design, for example sheltered housing (although this often comes without care and support), flexible retirement housing, retirement villages, very sheltered and extra care.

**12. How many supported housing units do you manage for each of the following client groups?**

*Some provision, especially for clients with complex needs, may fall into more than one client group, but please allocate units only once to most relevant primary client group.*

*If none please enter zero, if exact figure is unknown then please estimate, or tick not available box for each category.*

*The sum of units in categories a) to m) should equal the total number of units in Q6.*

## Further research

---

31. As part of this study, the Sheffield Hallam University research team plan to undertake some qualitative research with a range of key stakeholders. This might involve a phone call, or a Teams call with one of the research team so that we can gain a more in-depth understanding of the key issues facing your organisation in the provision of supported housing. We are hoping you will be willing to consider taking part in this next stage of the research.

Could you please confirm if you are willing to be contacted again by the research team about the next stage of the research – there will be no obligation to take part.
